

CHRISTIAN COLLEGE KATTAKADA

ENVIRONMENTAL CLUB REPORT

2014-2015

- During the academic year 2014-15, as part of the Environmental Club activities, a vermicompost unit was started for solid waste management in the college premise. The inauguration of the vermicompost unit was done by the Manager in the presence of the Principal, teaching and non-teaching staff and members of Environmental club. Waste management is a burning issue these days and with the establishment of this unit there is solution for this. Waste processed at the unit is used to prepare manure for plants.
- The UN General Assembly declared 2014 as the International Year of Small Island Developing States (SIDS). World Environment Day (WED) 2014 was celebrated under the theme of SIDS, with the goal of raising awareness of their unique development challenges and successes regarding a range of environmental problems, including climate change, waste management, unsustainable consumption, degradation of natural resources, and extreme natural disasters. In view of this, Environment Day Celebrations were organised by the Environmental Club of the college. Celebrations took off with the awareness class conducted by the Environmental club secretary. After this, environmental club members planted tree saplings.
- Environmental Club, Christian College, Kattakada in association with the department of Botany conducted a one-day seminar followed by an exhibition on 25 and 26 September 2014 in connection with the Ozone day celebrations. The focal theme was 'Ozone Layer Protection, the mission goes

on'. Dr. Abhilash R., Assistant Professor in Zoology, St. John's College, Anchal was the resource person.
