Committee discussed about the criteria 1-7 of first two points. Pending details

Criteria: 1 DCA syllabus (1.1.2.)  
Bos of <sup>Dr.</sup> Saji Kumar (1.1.3.)

Criteria: 2

2.1.1. No. of students joined from other state documents.

Criteria - 3.

Guideship document of Dr. Saji Kumar  
Project document of Mr. Abi.

Criteria - 4

No documents received

Criteria - 5

"

Criteria - 6

PTA 2013-14 missing.

Decided to forward the complaints put forward by the faculty of the mathematics dept. about the revised sy 2018 of I BSc degree Program in mathematics under CBES system

2.12.2019

To

The chairman  
UG board of studies in Mathematics  
University of Kerala, TVPM

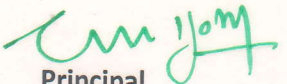

I here by ,forward the complaints/suggestions put forward by the teachers of the department of Mathematics about the revised syllabus 2018 of first degree program in Mathematics under choice based credit and semester system.

- Organization of topics for complementary courses in Physics, Chemistry and Statistics should have been done only after taking in to consideration, the mathematical knowledge essential for higher studies in corresponding disciplines.
- The topic "Representation theory", which is very difficult even for postgraduate students of Mathematics ,should not have been included in the complementary course in Mathematics for 4<sup>th</sup> semester B.Sc. Chemistry .
- The book on "Mathematical Methods for Physics and Engineering "by KF Riley and "Mathematics Methods in the Physical Sciences "by Mary L boas should be replaced with some books of good standard such as "Calculus" by Howard Anton.
- The book on Linear algebra by Gilbert strang is too tough and hence should be replaced with some new book which covers all topics essential for students entering PG course .
- As too much content is incorporated in the syllabus, Students and teachers alike are the worst affected.

Kindly, take necessary steps to solve the grievances by our teachers.

Yours faithfully,

  
Principal

Dr. VINCENT JOY  
Principal
